MISSION

Our mission is to help relieve the financial stresses experienced by cancer patients undergoing treatment.

The New York Cancer Foundation is a non-profit organization which offers financial assistance grants to qualifying patients actively undergoing cancer treatment in the Greater Metro Area. Our goal is to relieve some of the financial burden patients are facing so they may focus on their treatment and healing.

You can help by supporting the New York Cancer Foundation today.

The Foundation strives to relieve qualified patients in the Greater New York Metro Area of financial stress. We assist with day-to-day living expenses, including:

- *Rent or Mortgage payments*
- *Utility payments (water, oil, electric)*
- *Telephone payments*

Conquer Cancer, the ASCO Foundation, funds research for every cancer, every patient, everywhere. In 1964, seven oncologists created the American Society of Clinical Oncology (ASCO), now a global network of nearly 45,000 cancer professionals. As ASCO’s foundation, we support groundbreaking research and education so both doctors and patients have the resources they need.

MISSION

Conquering cancer worldwide by funding breakthrough research and sharing cutting-edge knowledge.

ASCO PROMOTES AND PROVIDES

- Cancer research
- Access to quality cancer care
- Patient resources and information
- Lifelong learning for oncology professionals

MISSION

To be a relentless force for a world of longer, healthier lives

ABOUT

The six cardiologists who founded the American Heart Association in 1924 would be amazed. From humble beginnings, the AHA has grown into the nation’s oldest and largest voluntary organization dedicated to fighting heart disease and stroke. A shared focus on cardiovascular health unites our more than 40 million volunteers and supporters as well as our more than 2,800 employees. [Learn more about our impact over time.](#)

Heart disease is the No. 1 killer worldwide, and stroke ranks second globally. Even when those conditions don’t result in death, they cause disability and diminish quality of life. We want to see a world free of cardiovascular diseases and stroke.

Our size and scope let us have real impact. We have invested more than \$4.5 billion in research, more than any U.S. nonprofit organization. [Learn more about our life-changing funded research breakthroughs.](#)
